DETAILED ACTION

Any rejections and or objections, made in the previous Office Action, and not repeated below, are hereby withdrawn.

Response to Arguments

Applicant's arguments, see pages 4-14, filed 22 March 2004, with respect to claims 20-22, 28, 29, 32-36, and 38-42 have been fully considered and are persuasive. The rejections of claims 20-22, 28, 29, 32-36, and 38-42 have been withdrawn. The Applicant's assert that the while the glass compositions may overlap it is not prima facie obvious that one of ordinary skill in the art would select a glass composition having the recited properties as claimed in the instant invention. This argument is deemed persuasive.

Allowable Subject Matter

Claims 20-22, 28, 29, 32-36, and 38-42 are allowed.

The following is an examiner's statement of reasons for allowance:

In view of the Applicant's arguments discussed above, the prior art fail to disclose or suggest a colored soda-lime glass comprising the coloring components as recited in the instant claims, which further has the recited transmittance and optical properties as instantly claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
